COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

Dear Sir:

Applicants express appreciation for the Examiner's allowance of the present application. Applicants understand that the Examiner has thoroughly examined the claims and prior art of record and has concluded that the art of record, whether considered alone or in combination, fails to disclose or suggest the entirety of each combination of steps and/or structure recited by each of the allowed claims.

In stating reasons for allowance of the claims, the Examiner referred to some, but not all, of the elements recited in claim 4. In so doing, Applicants understand the Examiner to be referring to the elements of claim 4 that were described as "pertinent" in the decision by the

Board of Patent Appeals and Interferences. The Examiner also referred to "a structure as defined in the specification (pages 10-12)." Applicants understand the Examiner's reference to the specification as being an indication of where exemplary embodiments are described. However, neither the reference to certain claim elements nor the reference to the specification changes the language set forth in any of the claims, and Applicants do not understand the Examiner's Statement of Reasons for Allowance to have intended any such change. Thus, Applicants do not acquiesce to any suggestion that the Examiner's Statement of Reasons for Allowance changes the language set forth in any of the claims.

Furthermore, Applicants submit that the reasons for allowance are clear from the record of prosecution as a whole and, thus, a separate Statement of Reasons for Allowance is unnecessary in this case.

Respectfully submitted,
